Satellite Radio is the wave of the future. For the time being it is the best way to get valuable information to travelers all around the United States. It could very possibly stop one family from driving into a tornado or get one very important businessman to a meeting on time. By not allowing this information to be sent to the public is unsafe & cruel. We have a right to know information that is important to us. If this information saves just one life how can you call it Unconstitutional? Please allow XM radio to provide us with this information. Thank You.
